About Us

02

Established in 2005 in Auckland, New Zealand, AS Colour has grown from humble beginnings in Central Auckland to now operate five distribution facilities and twenty-five retail locations across the US, UK, AU and NZ.

As a company, we firmly believe that longer-lasting products are better for the environment. By creating exceptional quality garments built to last, we aim to reduce waste and encourage conscious consumption.

Our foundation for quality is set around the fit, fabric, and finish. These three pillars guide us in every step of our design and manufacturing process. The combination of the perfect fit, high-quality fabric and exceptional finish is what makes AS Colour the top choice for quality in the industry.

From the beginning, we've known that our decisions must be bigger than ourselves. This is why we understand the importance of responsible manufacturing, ethical practices and work closely with our suppliers to ensure fair labour conditions and environmental responsibility throughout our supply chain. Our goal is to build the best blank apparel, built to last for you to place your ideas on.

Fit

We take our time in the design process for every garment we manufacture. We pay careful attention to the fit of each and every garment we create. Our team of skilled designers and pattern makers work to ensure that our products offer the perfect fit for their audience.

Fabric

Crafting garments of unmatched quality begins with our fabric. We meticulously choose the highest quality yarn from trusted suppliers. This ensures that our fabrics are durable and long-lasting. By utilizing premium yarn, we create garments that withstand the test of time, providing our customers with clothing that maintains its integrity and exceptional feel, wash after wash.

Finish

Our commitment to impeccable finish is what sets it apart as the industry leader for printing. The attention to detail and superior finish provide the ideal canvas for printing and embellishment. Each garment undergoes rigorous quality control to ensure a smooth and even surface, enhancing the printing process and ensuring vibrant, long-lasting prints.

Social Responsibility

From the beginning, we've known that the decisions we make have to be bigger than ourselves.

We're transparent about the work we're doing to contribute to a sustainable, equitable and safe industry, and realistic about what's still to be done.

We continue to explore and evaluate better ways of working, and seek out global partners who can help us create greater leverage to create positive change within the fashion industry.

Here are some of the ways we're working towards a better world:

We're making changes, Saying goodbye to plastic

We've been taking steps at each stage in our supply chain to reduce plastic and unnecessary waste. We know that even small changes are significant, and we continue to seek out more planet friendly alternatives where we can.

We're selective, Responsible sourcing

We'd rather make the right decisions than the easy ones. To bring you products you can feel good about, we only partner with suppliers and factories whose values and vision for change and continuous improvement align with our own.

We're committed to being better, A transparent supply chain

We prioritise transparency and traceability across all levels of our supply chain. Through auditing, we continuously monitor, improve and remediate process, ensuring the safety, health and sustainability of practices for both people and planet.

We're better together, Impact partnerships

Through partnerships, we can collectively scale our efforts for greater impact, better supporting the lives of garment workers both within and beyond the factory walls.

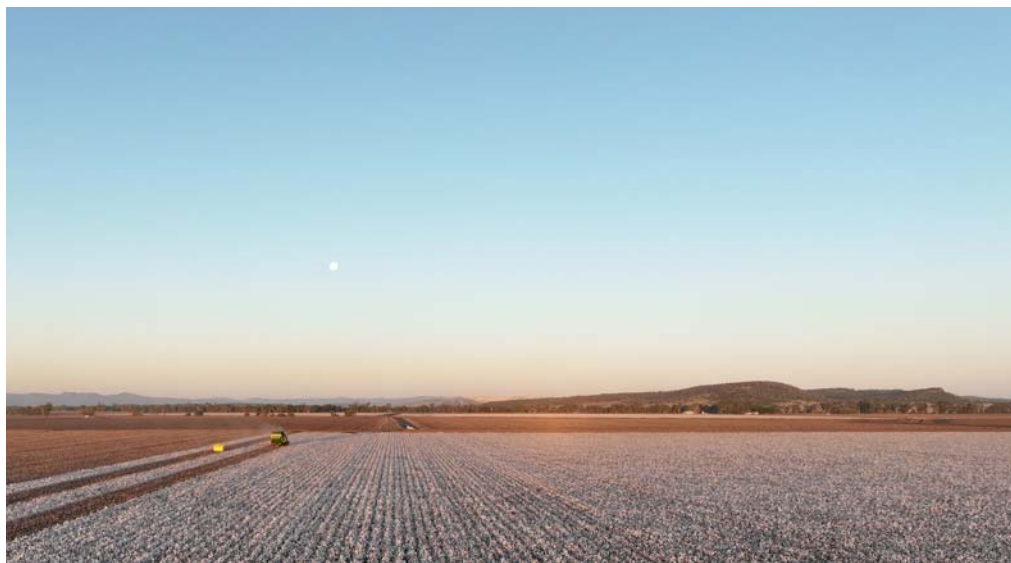

03

Our Partnerships

Global challenges such as climate change, ensuring decent working conditions for all, and responsible consumption need a global plan for action. We know that through partnerships, we can collectively scale our efforts for greater impact, supporting the lives of garment workers both within and beyond the factory walls.

We've consciously chosen industry partners that support us in contributing to a better future for everyone in our industry. Read more about them to the right.

Safe, sustainable supply chains with amfori

Everyone has the right to a fair and safe working environment. Through amfori, we're working to ensure the clothes you buy are produced through a healthy and transparent supply chain, compliant with international labour laws.

Ethical fabrics with Better Cotton Initiative

Best practice starts at the source. Through training, BCI aims to facilitate more sustainable cotton production, making it better for the people who produce it, better for the environment and better for the sector's future.

Productive, empowered workers with Reemi

We have a responsibility to ensure garment workers in our factories feel dignified, and healthy. As part of this, we've partnered with Reemi, a social enterprise that distributes culturally appropriate menstrual health products, and provides education to help break down social stigma and increase hygiene awareness for workers.

Colouring our world, safely with OEKO-TEX

Harmful chemicals have no place against your skin, or in the environment. We use factories with OEKO-TEX® Standard 100 certification to ensure the effect the dyeing industry has on the environment is minimised and that our garments are safe for consumers as well as the people who make and sell them.

Reducing our emissions footprint with CarbonClick

All production and purchases come with a carbon cost; we're offsetting ours through a partnership with CarbonClick. You can choose to support our efforts by offsetting your order at the checkout, with units going towards selected projects that positively impact the environment.

Mens

STAPLE TEE - 5001.
