THE NEW LOOK

2020

at ease:
variations in volume

Our latest women's shirt collection puts design at the forefront, with a new take on proportion.

With a sense of simplicity at its core, these new styles explore a looser, longer silhouette for an effortless elegance.

Light, airy fabrics, curved hemlines designed to be worn out, and free-flowing volumes all combine for a beautiful uniform that feels inspired and less ordinary.

A classic colour palette of Black, White and Blue is uplifted with the addition of this year's defining colour, Amethyst.

We invite you to feel at ease, and hope you enjoy exploring our most contemporary collection to date.
